

In your quest for happiness, don't expect:

- Others to be only one sided.
 - Nice without mean, kind without cruel etc.
 - To live outside of their values, that is, what is important to them!
 - To be one sided and not do what's important to them (their values).
- Yourself to be only one sided.
 - Nice without mean, kind without cruel etc.
 - To live outside of your values, that is, what is important to you by trying to live according to someone else's values.
 - To be only one sided and not do what's important to you (your values).
- Others and Yourself to be only one sided.
 - To go against theirs & your values all at the same time.
- God to be a projection of our own human characteristics.
 - To be only one sided and live outside of our own projected human values.
 - To be a projection of your own human characteristics and be only one sided and to live outside of your own projected human values.
- Mechanical objects to defy the laws of physics that govern them.
 - Those mechanical objects to perform in any manner other than that for which they were designed.
